[With ComfortLine, I don't have to worry about anything, no matter what the future brings.]

ComfortLine

Future right from the start

Smart ideas are needed in today's home installations. Assembly and installation should be easy and comfortable, but at the same time it is good to be prepared now for the solutions of the future.

The new ComfortLine distribution boards and wall-mounting cabinets make everything possible. And this with a broad portfolio for every application.

Good to know: those who rely on ComfortLine are already prepared today for the electrical installation of tomorrow.

Added value guaranteed

Smart ideas for today's home installations

The expectations regarding modern electrical installations are high: they are supposed to be more flexible, faster, more efficient and easier and more comfortable in use. In addition, sustainability as well as high quality and economic efficiency are decisive. Thanks to the comprehensive and consistent product portfolio in protection classes I and II, exemplary ease of installation and intelligent smart home solutions, the new ComfortLine cabinets from ABB meet all requirements in the best possible way.

Increased flange size by more than 50%
Enormous amount of usable space for cable entry more than 50% larger flange openings, combined with a large number of cable entries, now offer even more space for mounting and wiring. No matter whether at the top, bottom or sides, the flange openings do have the same size everywhere – even with the compact distribution boards.

Convenient pre-assembly of the installation panels
The installation panels can now be snapped in quickly and easily using the new QMS snap-in technology. This saves time, ensures greater safety and makes pre-assembly even more convenient for you.

Integrated wiring ducts
The horizontal or vertical wiring duct in the area of the cable entry at the top and bottom as well as in the side touch guard provides more flexibility in wiring.

Secure locking
Thanks to 3-point door locking with espagnolette closure, the doors can be locked with absolute tightness and stability. Once locked, there is literally nothing left to jiggle at the door.

High degree of protection
For a high degree of protection of the devices, the standard version of the cabinets is designed to offer protection class IP44.

The intelligent solutions
of ComfortLine are open
for all requirements.

**... and if the requirements change,
everything is well prepared.**

Always up to date

today and tomorrow

The repertoire of communication and media devices in living and working environments is constantly growing, and residential, commercial and industrial buildings are increasingly connected. No matter which requirements communication and information technologies as well as home and building automation will bring with them. With the new compact distribution boards and wall-mounting cabinets tomorrow's solutions are already here today. The decision for ComfortLine is therefore always a decision for the future.

—
01
More flexible
yet structured cabling for communication and media technology.

—
02
Perfectly prepared
The additional wiring space as well as other new developments allow for a smooth installation of the latest technologies.

All highlights at a glance

Innovations you will benefit from: in the development of the ComfortLine series – the focus was on the question of how to increase your benefits even further. Numerous useful and practical innovations of ComfortLine help you to make installation work faster and more efficient and to be optimally prepared for the future.

- 01
50 % larger flanges
ComfortLine series with the largest number of cable entries on the market.

50%
larger

- 02

- 03

- 02
QMS snap-in technology
fast and simple snapping of the installation panels with the Quick-Mounting-System.

- 05
Tool-free adjustment
of the door hinges using a knurled nut.

- 04

- 05

- 03
Integrated wiring ducts
Innovative wiring ducts at the top and bottom as well as in the side touch guard.

- 06
High degree of protection IP44
Wall cabinets of a height of 6, 7 and 9 GU also with the degree of protection IP54.

- 06

- 07

- 04
High stability thanks to secure 3-point door locking.

- 07
Smooth wall mounting
Vertical fastening through depth level compensation.

Absolutely unique: the convenient pre-assembly of the installation panels

— 08

— 09

— 10

— 11

— 12

— 13

— 14

— 15

— 16

— 08
Numerous options for cable entry at the top, bottom, sides and rear.

— 09
Lateral coupling by busbar glands of wall-mounting cabinets.

— 10
Rear wall with cable entry options.

— 11
The door is easy to attach and detach thanks to the upper hinge pin.

— 12
Rear mounting level for the installation of media panels.

— 13
Front mounting level for the installation of distribution board panels and the distribution panel system CombiLine N.

— 14
Generous wiring space for N/PE cables and tool-free assembly of the N/PE Quick-terminals.

— 15
Generous wiring space for distribution board panels.

— 16
Trim frame for flush-mounting.

ComfortLine Compact CA

Compact distribution boards

The new wall-mounted compact distribution boards ComfortLine Compact CA meet the demanding requirements of installers regarding flexibility, functionality and ease of installation. Due to the generous space available, there is sufficient room for future communication devices.

—
01

—
01
Patch panel 6- or
12-fold with punchings
for keystone modules

—
02
The rotatable 3-way socket outlet
makes the connection of different
power supplies quite simple.

—
02

+

- Quick Mounting System (QMS) snap-in technology for installation panels
- Large flange openings as in wall-mounting cabinets
- Plumb fastening through depth level compensation
- Easy assembly and disassembly of the doors
- Tool-free adjustment of the door hinges
- Tool-free assembly of flanges using push-in technology
- Generous cable entry area
- Cable strain relief combs for cable entries
- With or without installation panels
- Different door variants
- Rear cable entries at top and bottom
- Sheet steel rear wall

ComfortLine A/B

Wall-mounting cabinets

In electrical installation, efficiency, flexibility and high quality requirements are closely linked. The ComfortLine wall cabinets from ABB combine these properties in an exemplary manner. Smart detailed solutions and further developments make the cabinets extremely versatile and user-friendly.

—
01
Tool-free adjustment of the
Door hinges using a
Knurled nut.

—
02
Quick and easy
Engage the mounting panels with the
Quick-Mounting-System.

- Quick Mounting System (QMS) snap-in technology for installation panels
- Available in protection class I, ComfortLine B and protection class II, ComfortLine A
- Plumb fastening through depth level compensation
- Easy assembly and disassembly of the doors
- Tool-free adjustment of the door hinges
- Practical trim frame for flush-mounting
- Tool-free assembly of flanges using push-in technology
- Generous cable entry area
- Horizontal and vertical wiring ducts
- Easy top, bottom and lateral coupling
- Lateral baying with busbar entry
- Sheet steel rear wall

ComfortLine Compact distribution boards

Complete media enclosures and panels for empty cabinets

Technical specifications

- Media enclosures complete with integrated media panels
- Media panels for empty cabinets
- Choice of four different doors
- Media panels with perforated sheet steel mounting plate without cover
- With fitted DIN rail
- Wire holders included
- Quick mounting of the devices without drilling
- The protection class is dependent on the respective internal configuration

- 01**
Four door variants:
- Standard doors
- Transparent door
- Doors with ventilation holes
- WiFi-doors

- 02**
Wire holder for a neat installation and fast wiring

- 03**
Rubber holder for quick and easy mounting of devices

ComfortLine Compact CA distribution boards

With distribution board panels and media panel

Technical specifications

| | |
|----------------------------|---|
| Standards/regulations | DIN EN 61439-1/-3 |
| Protection class | II, double insulated I, earthed in connection with earthing set (accessories) |
| Protection class | With sheet steel door IP44 With sheet steel door ventilated IP30 With sheet steel door ventilated and plastic insert IP30 |
| Mechanical impact strength | IK07 |
| Rated current | I_{nA} up to 125 A |

Product features

| | |
|--------------------------------|--|
| Enclosures and doors | Made of sheet steel, colour white RAL 9016, powder-coated With depth level compensation One top mounted membrane flange per panel width Door opening angle 120° Double-wing doors on cabinets with three or more panel widths Doors with espagnolette closure Plastic covers for distribution board panels With cable strain relief |
| Internal configuration options | DIN rail spacing 125 mm Panels for rail mounting devices with N/PE Quick-terminals Perforated sheet steel mounting plate preassembled |
| Delivery forms | Enclosure with door Labelling system included in the scope of delivery Wire holder included in the scope of delivery |
| Accessories | Cable entry covers Lock replacement parts Power plugs Patchpanel |

N/PE Quick-terminals

Standard-compliant, concise, flexible

Configure as required

Due to the modularity and the extensive range of products, you can configure the products individually and practically. Depending on requirements, various Quick-terminals can be combined on a common terminal carrier. If a larger N or PE terminal block is required, two Quick-terminal blocks can be connected with the ZK10P10 connection bridge.

| N/PE terminal blocks with units | N Quick-Terminals | Screw connection system | Spring clamp system | PE Quick-Terminals | Screw connection system | Spring clamp system |

Technical specifications

| | |
|------------------------------|----------------------|
| Standards/regulations | DIN EN 61439-1/-2/-3 |
|------------------------------|----------------------|

| | |
|-------------------------|------------|
| Protection class | I, earthed |
|-------------------------|------------|

| | |
|-------------------------|------|
| Protection class | IP44 |
|-------------------------|------|

| | |
|-----------------------------------|------|
| Mechanical impact strength | IK07 |
|-----------------------------------|------|

| | |
|----------------------|------------------------|
| Rated current | $I_{(nA)}$ up to 250 A |
|----------------------|------------------------|

Product features

| | |
|-----------------------------|---|
| Enclosures and doors | Made of sheet steel, colour white RAL 9016, powder-coated |
|-----------------------------|---|

With depth level compensation

One top mounted membrane flange per panel width

Door opening angle 120°

Double-wing doors on cabinets with three or more panel widths

Doors with espagnolette closure

Flange openings pre-embossed at the bottom and sides

Fastening elements CZ11 for the front fastening level are assembled

| | |
|---------------------------------------|---|
| Internal configuration options | Prepared to be fitted with distribution board panels/combination sets |
|---------------------------------------|---|

Prepared to be fitted with CombiLine-M modules on the EDF mounting frame

| | |
|-----------------------|--------------------------|
| Delivery forms | Empty cabinets with door |
|-----------------------|--------------------------|

Also delivered is a flange for cable entry CZF1 for the lower connection area

| | |
|--------------------|--------------------|
| Accessories | Cable entry covers |
|--------------------|--------------------|
